WHOLESALE CATALOGUE

FOR NURSERIES AND DEALERS.

WM. R. PRINCE & CO.,

FLUSHING, NEAR NEW YORK.

FORTY-FOURTH EDITION, FOR AUTUMN, 1859.

THOSE who desire larger Assortments are referred to the *General Catalogues* of the various departments, which comprise the most complete and select Assortment of every class of Fruit and Ornamental Trees, Shrubs, and Plants that has ever been concentrated in one establishment. The superior accuracy of all the Fruits, which have been carefully tested in our Experimental orchards, is of the most *vital importance* to those who are commencing new Nurseries, as well as to amateurs generally.

FORWARDING.—Purchasers should state explicitly how the packages are to be marked, and by what route to be forwarded. We fulfill instructions and forward receipt to the purchaser, and there is consequently the best security for their delivery, after which they are at the risk of the purchaser.

PRICES.—*The prices stated apply only when the specified quantity is ordered.* When smaller parcels are desired, we will charge the rates of our General Catalogue, allowing a discount therefrom to dealers.

SELECTION OF VARIETIES.—We reserve the right of selection, but will send such kinds as the purchaser may name, as far as practicable.

PAYMENTS.—The terms are cash, or a satisfactory draft or note.

PACKING.—We pack all articles so securely, that they go safely to California, Oregon, South America, and every part of Europe.

COST OF TRANSPORTATION.—The transportation from New York to Dunkirk on Lake Erie requires but 18 hours, and the expense is trivial when compared with the quality and prices of the Trees.
